Making your life easier

Azkoyen we have more than 75 years of experience dedicated to the art of making people's lives easier. We believe in simplicity as the purest state of sophistication, and in leaving a good taste in the mouth as the best way to guarantee good results

Through smart, innovative, user-friendly and attractive automation solutions we seek: to solve new consumer challenges and serve an excellent experience in each moment and for every need.

We believe in simplicity as the purest state of sophistication, and in leaving a good taste in the mouth as a guarantee of achieving the best result.

zummo

The best squeezed juice

3-year warranty

Zummo offers a 3-year warranty for its juicers

zummo

Juicing solutions

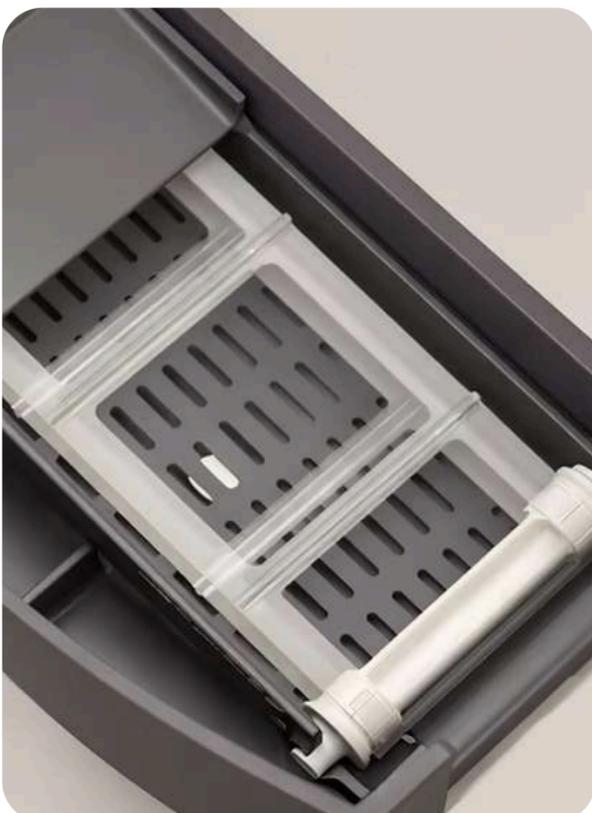

EVS® - the heart of Zummo extracion.

It delivers the purest juice, as the peels are never in contact with the juice.

This preserves natural flavor while maximizing yield and consistency.

Various squeezing kits

Offer clients and guests lime, orange, tangerine, pomegranate and grapefruit juice, with one machine.

Auto-cleaning filter

Fully integrated into the machine, starts moving when the machine is activated. It sweeps away any pulp or seeds that may remain.

Maximum food safety

Closed Chamber is a concept of integral connection of the parts that make up the juicer.

This system combines usability with the greatest possible hermeticity and protection of the juicer system, as it prevents the entry of external agents, guaranteeing maximum safety for the consumer.

Sales image

The image and warmth perceived at the point of sale is essential to gain customer confidence.

A clean-looking juicer generates an increase in juice sales of 20-30% compared to machines that convey a dirty image, with dried pulp or half-squeezed oranges.

About us
